THE POWER-TO-CHOOSE

What is electricity deregulation?

Electric deregulation means that consumers in deregulated territories have the power to choose which company they would like to serve as their electricity provider. The purpose of deregulation is to create a competitive market and cause cheaper rates for electricity service.

Utility	Name	Phone	Website
Water	City Utility Department (see back)		
Electricity	TXU	800.818.6132	www.txu.com
